

## MOTOR SALES CORP. DISTRIBUTORS FOR KELLY AUTO TRUCKS

Motor Sales Corporation of this City  
Maintain Factory Expert Service—Branch in Salt Lake

The Motor Sales Corporation of this city is one of the companies in this valley which has taken long strides forward in the automobile and motor truck business, having secured contracts for the distribution of the King Eight touring car, for Utah and Idaho, and for Utah, Idaho and Nevada on the Kelly Trucks, and in addition to being distributors for these cars they have the agency for Cache Valley for the famous Saxon Six, a coming car in the light six class.

The fact of their being distributors distinguishes them from any other agency in the northern part of the state, placing this concern on a par with Salt Lake City dealers. In fact the Motor Sales Corporation has established a Salt Lake City branch house with Boyd Hatch, of this city, as manager.

The contract as distributors on the Kelly Truck was made with the manufacturers at Springfield, Ohio, only last August and in the short time since, they have delivered some sixteen of these famous trucks. Among the present owners are Jos. E. Wilson, Jr., Logan; Anderson & Sons company, Logan; Anderson & Sons company, Idaho Falls; Anderson & Sons company, Blackfoot; Thatcher Mill & Elevator company, Logan; Utah Condensed Milk company, Richmond; Utah-Oregon Lumber company, Ogden; Fisher Kettle Coal company, Salt Lake City; W. I. Frank Produce company, Salt Lake City; Marsh Coal company, (2) Salt Lake City; Perdue & Company, (2) Salt Lake City; Kimball Van & Storage, Salt Lake City; Haines Fruit company, Salt Lake City. Other users of trucks sold by the Motor Sales Corporation are W. F. Jensen Candy company, and the Logan Lumber company.

The Kelly Springfield Truck was introduced in Utah by the Motor Sales company and the success of this introduction has so interested the manufacturers that they have elected to keep in the territory a factory expert and a special service man, both of whom have now moved here to make their home. One of the factors largely responsible for the satisfactory showing of the Kelly in the west is the fact that Uncle Sam maintains at Nogales, Arizona, a fleet of 240 Kellys that have demonstrated feats in the negotiation of roads that would have

been considered before the actual performance, an absolute impossibility.

The King Eight has proved a very popular model touring car and this progressive concern has sold upwards of 50 of these high grade cars in the past season. Having secured the agency for the Saxon car this firm feels they have in the Saxon the coming car in the light six class. One that has specifications equal to any car that sells for from \$200 to \$300 more money. This is the car that startled the motor world in its cross country run the past summer, beating the record formerly held by a car that sold for more than twice the price of the Saxon.

The Motor Sales Corporation is comparatively new in the motor field but has already gained considerable fame as territory distributors. They have an excellent location on South State street in Salt Lake City, and their Logan stand is in the heart of the business district on South Main street. H. E. Hatch is president of the company and H. S. Hatch is manager of the local house. After considerable investigation the future of this business looked so bright, that the Motor Sales Corporation decided that to get direct factory connections was the proper thing to do and their experience the past season demonstrates the wisdom of this decision.

Be loyal to your state and patronize Utah industries.

### Notice of Assessment

Mexican Citrus Fruit Company,  
Logan, Utah.

Notice is hereby given that at a meeting of the directors held on the 23rd day of November, 1916, an assessment of \$5 a share was levied on the capital stock of the corporation, payable January 15, 1917, to the secretary of the corporation, at his office at Logan, Utah. Any stock upon which this assessment may remain unpaid on the 15th day of January, 1917, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on the 12th day of February, 1917, to pay the delinquent assessment, together with the cost of advertising and expense of sale.

H. BULLEN, JR.,  
Secretary.

Commercial Block, Logan, Utah.  
Adv. 1-11-17.

## WELLS FARGO EXPRESS CO. KEPT BUSY

The Wells Fargo Express company opened offices in Logan on the completion of the Ogden, Logan & Idaho railroad from Preston to Ogden. Realizing the possibilities of this section and the new business that the electric railroad would create.

Mr. Hall, the obliging agent at Logan assures us that the company officials are highly pleased with the results of this branch.

One of the largest of American express companies and operating in all parts of the United States and the Orient.

Have you heard of The Wells Fargo Way? Perhaps not, here in Logan, as the company is new to us, but this means the personal, safe and quick transportation of express packages, and it has a very vital meaning to shippers throughout the length and breadth of the United States.

Transporting anything from an elephant to a canary bird and guaranteeing prompt delivery and care in transit is the reputation of Wells Fargo.

A public utilities corporation that has the welfare of its 30,000 employees at heart, as is shown by the company giving to all these employees a Thanksgiving dinner last Thanksgiving Day.

In shipping via Wells Fargo, your package, although one of thousands, is handled as if it were only one. It is not dumped in a collapsible container regardless of its contents. If it is small and fragile, it travels in a safety trunk, where it is not in danger of being crushed by large and heavy shipments. If it is large enough it will have a car all to itself. Horses and automobiles travel by express in specially constructed cars. In fact, for each class of traffic the express provides a means of carriage suited to the needs of the shipment. From the time the Wells Fargo wagon calls for your package until the Fargo man delivers it at the other end, perhaps thousands of miles distant, it is in the care of trained, responsible men. This is the meaning of "The Fargo Way."

The people of Logan and the valley welcome Wells Fargo service here and wish them a rushing business during 1917.

## Here's What Uncle Sam Thinks of Kelly Trucks

The United States War Department recently ordered two hundred and thirty-one Kelly Trucks for service on the Mexican border—one hundred and sixty-five 3½-ton and thirty-six 1½-ton chassis, fully equipped. A substantial form of government O. K. on Kelly quality.

AND HERE'S WHAT UNCLE SAM THINKS OF  
KELLY - SPRINGFIELD SERVICE

This order equips seven motor truck companies of thirty-three trucks each—each company consisting of a truck master and three assistants, a chief mechanic and two assistants, forty-four drivers and two cooks. All recruited and trained by the Kelly-Springfield Motor Truck Company.

A reputation for efficiency of Kelly-Springfield service goes with the reputation for Kelly durability, staunchness and continuous operation.

If Uncle Sam unhesitatingly selects Kelly Trucks for border roads and army service, you have a splendid basis for selecting them for your roads and your service.

### "LIKE KELLY DOES"—FREE

A valuable monthly publication of great interest to all truck users and those concerned in the question of truck delivery. Sent free on request.

ler skates raced through the concrete-lined passageway from Colorado street to the outlet in South Pasadena, a distance of three miles. Each skater illuminated his way with a flash light. The concrete floor of the big tube was not very smooth in spots, and the contestants found some rather rough going. In spite of this the winner, who was a high school boy of 15, covered the distance in 16 minutes.

### A. H. PALMER & SONS

The history of Logan's growth and modernization is closely linked with A. H. Palmer & Sons, the popular plumbers and plumbing supply concern. Always able to anticipate the wants of the people and carry in stock plumbing fixtures in all grades this firm has done most of the contract plumbing work done in our city during the past years. Every

plumbers, the work done by this firm is always done right and to have it done by Palmer is always a guarantee of satisfaction.

Occupying their own building on North Main street in the Arimo block, this is one of Logan's most useful and substantial business houses.
